**Office Carpet And upholstery cleaned And Sanitized ; Desk And Key pad Cleaned and sanitized.**

**Special up to (200 SF Office)**

**\$79.00**

## **Hotel page prices**

Smoking rooms are becoming a thing of the past even though many hotels still offer them. **People are becoming more health conscious. Although?**

What if a hotel offered hygienically cleaned rooms? Rooms that have had their mattresses and furniture sanitized and treated for dust mite control. Table tents can be placed on the bed stands to inform your clients that the mattress and furniture have been treated and sanitized and are hygienically clean. If the hotel took 10 percent of their rooms and made them hygienically clean rooms, and then charged \$5 to \$10 a night more for hygienically cleaned, this could make a substantial increase in income for your hotel and serve your customers needs best..
